

The Prime Choice For Prime Labeling

Labeling Solutions That Apply

### Model 2038 Low Cost Print/Apply

The 2038 is a value-priced labeler that does not skimp on standard features. It can be easily modified to apply labels using tamp-on, tamp-blow, or air-blow labeling methods. Equipped with standard error diagnostic routines, and features not usually found on a value priced printer applicator.

### Print/Apply Series

The Label-Aire print/apply series can be provided with Zebra, Sato or Datamax print engines with up to 12"/sec print speeds, at either 200 or 300 DPI densities. Labels can be up to 8.5" wide and 24" long. Speeds of over 100 products per minute are possible.

### Model 2138 Heavy Duty Print/Apply

The 2138 is known the world over for its rugged corrosion resistant, stainless steel and anodized aluminum construction which provides durability and maintenance-free operation in the most hostile environments.

### Model 2138 Dual Action Tamp

The 2138 DAT dual action, air cylinder operated tamp rotates 90° across the conveyor to apply the front label. As the product proceeds, the second straight-line stroke extends using the same cylinder to apply the side panel label. Four configurations allow labeling front or trailing panel and either side.
